Upon such roadways as are divided by a parkway, grass plot, reservation, viaduct, subway or by any structure or area, drivers shall keep to the right of such division, except when otherwise directed by an officer, signs, signals or marking.

SECTION 14: Roads Closed to Travel¹³⁵

No operator shall enter upon the road surface of any street or highway or section thereof, when by reason of construction, surface treatment, maintenance or the like, or because of some unprotected hazard, such road surface is closed to travel, and one or more signs, lights or signals have been erected to indicate that all or part of the road surface of the street or highway is not to be used, or when so advised by an officer, watchman, member of a street or highway crew or employee of the town, either audibly or by signals.

SECTION 15: Funeral Processions¹³⁶

- A. A funeral composed entirely or partly of a procession of vehicles shall be identified as such by means of black pennants bearing a purple cross, attached to both the first and last vehicles of the procession.
- B. It shall be the duty of each driver in a funeral or other procession to keep as near as possible to the right edge of the roadway and to follow the vehicles ahead as closely as it is practicable and safe.
- C. At an intersection where a lawful stop sign exists, the driver of the first vehicle in a funeral or other procession shall be the only one required to stop before proceeding through the intersection.

SECTION 16: Obedience To Traffic Control Signals¹³⁷

Colors and arrow indications in traffic control signals shall have the commands ascribed to them in this section, and no other meanings, and every driver of a vehicle, railway car or other conveyance shall comply therewith, except when otherwise directed by an officer or by a lawful traffic regulating sign (other than a stop sign) signal or device, or except as provided in Section 15 (C) of this article. In no case shall a driver enter or proceed through an intersection without due regard to the safety of other persons within the intersection regardless of what indications may be given by traffic control signals.

- A. **GREEN:** While the green lens is illuminated, drivers facing the signal may proceed through the intersection, but shall yield the right of way to pedestrians and vehicles lawfully within a crosswalk or the intersection at the time such a signal was exhibited. Drivers of vehicles making a right or left turn shall yield the right of way to pedestrians crossing with the flow of traffic.
- B. **RIGHT, LEFT AND VERTICAL GREEN ARROWS:** When a right green arrow is illuminated, drivers facing said signal may turn right. When a left green arrow is illuminated, drivers facing said signal may turn left. When a vertical green arrow is illuminated, drivers facing said signal may go straight ahead. When a green arrow is exhibited together with a red or a yellow lens, drivers may enter the intersection to make the movement permitted by the arrow, but shall yield the right of way to vehicles and pedestrians proceeding from another direction on a green indication.
- C. **YELLOW:** While the yellow lens is illuminated, waiting drivers shall not proceed and any driver approaching the intersection or marked stop line, shall stop at such point unless so close to the intersection that a stop cannot be made in safety, provided, however, that if a green arrow is illuminated at the same time, drivers may enter the intersection to make the movement permitted by such arrow.
- D. **RED:** While the red lens is illuminated, drivers facing the signal shall stop outside of the intersection, or at such point as may be clearly marked by a sign or line, provided, however, that if a green arrow is illuminated at the same time drivers may enter the intersection to make the movement permitted by such arrow.
- E. **RED AND YELLOW:** While the red and yellow lenses are illuminated together, drivers shall not enter the intersection and during such time the intersection shall be reserved for the exclusive use of pedestrians.
- F. **FLASHING RED:** A flashing red lens shall indicate those intersections at which a driver is required by law to stop before entering.
- G. **FLASHING YELLOW:** A flashing yellow lens shall indicate the presence of a hazard and drivers may proceed only with caution.
- H. **FLASHING GREEN:** A flashing green lens shall indicate an intersection or pedestrian crosswalk in use or subject to use by entering or crossing traffic. Drivers may proceed only with caution and shall be prepared to comply with a change in the signal to a red or red and yellow indication.

Pedestrians approaching or facing a yellow, red or flashing "DON'T WALK" illuminated indication shall not start to cross a roadway.

E. FLASHING RED, YELLOW OR GREEN

At any traffic control signal location where a flashing red, flashing yellow or flashing green indication is being given facing a crosswalk, pedestrians shall actuate, where provided, the pedestrian signal indication and cross the roadway only on the red-yellow or 'WALK' indication when such indication is in operation. If no pedestrian signal is provided, pedestrians shall cross within crosswalks with due care.

SECTION 4: Pedestrian Crossings and Use of Roadways

- A.** It shall be unlawful for any person to actuate a pedestrian control signal unless a crossing of the roadway is intended.

SECTION 5: Requirement to Exercise Due Care

The provisions of these regulations shall in no way abrogate the provisions of Chapter 90, Sections 14 and 14a of the General Laws (ter.ed.) which provide: "Precautions for safety of other travelers" and for the "Protection of blind persons crossing ways". Furthermore, notwithstanding the provisions of these regulations, every operator of a vehicle shall exercise due care to avoid colliding with any pedestrian upon the roadway and shall give warning by sounding the horn when necessary and shall exercise proper precautions which may become necessary for safe operation.

SECTION 6: Enforcement of Pedestrian Regulations

These pedestrian control regulations shall be enforced by all officers of the Town of Hudson.

SECTION 7: Exemptions

The provisions of these rules and regulations governing the use of ways by pedestrians shall not apply to pedestrians actually engaged in work upon a roadway closed to travel or under construction or repair, to municipal, state, federal or public service corporation employees while in the performance of their duties, to officers engaged in the performance of their public duties or to pedestrians acting in an emergency when such emergency necessitates departure from any part of these rules and regulations.

SECTION 8: Penalties

Any person who violates the provisions of this article which deals with the proper use of ways by pedestrians shall be punished as provided in Chapter 90, Section 18a of the General Laws (ter. ed.).

SECTION 9: Effect Of Regulations

All existing rules and regulations governing the operation of vehicles or the use of ways by pedestrians which are inconsistent herewith are hereby expressly repealed. This repeal shall not, however, effect any punishment or penalty imposed or any complaint or prosecution pending at the time of passage hereof for any offense committed under any of the said rules and regulations hereby repealed.

If any section, sub-section, sentence, clause or phrase of these rules and regulations is for any reason unconstitutional, such decision shall not effect the validity of the remaining portion of these rules and regulations. The Board of Selectmen of the Town of Hudson hereby declare that they would have passed these rules and regulations and each section, sub-section, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, sub-sections, sentences, clauses or phrases be declared unconstitutional.
